Synthetic Candidate 5

Frontend Developer
+1 202 555 0100 · Remote · candidate-5@example.test

Professional Summary

Profile targeting Frontend Developer lists React, TypeScript. Linked repositories include Library API and Community Events; repository access does not establish candidate authorship. Candidate-provided claims (not independently verified): Added PostgreSQL migrations for books and lending records. Wrote integration tests for checkout validation and error responses.

Technical Skills

Frontend & Web: React
Languages: TypeScript
Backend & APIs: Node.js

Technical Projects

Community Events GitHub

A community event registration interface.

TypeScript, React

- Implemented TypeScript validation for event dates and participant details.
- Created React forms for event registration and accessibility preferences.
- Documented keyboard navigation and tested form error messages.

Professional Experience

Full-stack Engineer — Synthetic Software Company 1 Jan 2023 – Jan 2024

Remote

- Implemented API validation and documented error responses.
- Added regression tests for authentication and database transactions.
- Reviewed deployment checklists and investigated reported application errors.

Education

BSc in Computer Science Sep 2018 – Jun 2022

Synthetic University 1
