Devon Vance

Software Engineer
devon.vance@minimalist.test
minimalist-coder.io

Professional Summary

Software engineer focused on clean, maintainable systems programming and database performance optimization.

Professional Experience

Software Developer — Core Systems Lab Jan 2023 – Present

Remote | Full time

- Maintained high-throughput data structures and investigated memory allocation bottlenecks.
- Wrote test suites for internal concurrency primitives and network socket handlers.

Technical Projects

Embedded Key-Value Store **Repository**

LSM-tree based key-value storage engine.

Go, Linux

- Implemented append-only write-ahead log and memtable flush synchronization in Go.
- Benchmarked read throughput achieving 120,000 operations per second under concurrent load.

Technical Skills

Skills: Go, C++, PostgreSQL, Linux

Education

Bachelor of Science in Computer Science Sep 2018 – May 2022

State University | Boston, MA
