Professional Summary

Backend engineer with practical experience designing RESTful APIs and backend services using Node.js, NestJS, and Python frameworks including FastAPI and Flask. Proficient in relational data modeling and query optimization with PostgreSQL, Prisma, and TypeORM, complemented by Redis caching layers and Docker containerization. Experienced in implementing secure JWT authentication with fine-grained role-based access control across collaborative web platforms.

Technical Skills

Backend & APIs: Node.js, FastAPI, Flask, NestJS, Express.js

Languages: Python, TypeScript, JavaScript, SQL

Databases & ORMs: PostgreSQL, Redis

Cloud, DevOps & Systems: Docker, Git

Frontend & Web: Next.js

Technical Projects

Product Data Explorer **GitHub**

- Engineered a modular NestJS backend with TypeORM and PostgreSQL persistence, integrating a Redis caching layer to accelerate query response times.
- Containerized application services with Docker Compose and integrated OpenAPI documentation alongside automated GitHub Actions continuous delivery pipelines.
- Architected a full-stack product exploration platform utilizing Next.js 14 and Tailwind CSS with server-side rendering for catalog browsing.

Collaborative Task Manager **GitHub**

- Designed and implemented RESTful CRUD APIs using Node.js and Prisma ORM, optimizing complex PostgreSQL queries to support real-time application updates.
- Built a full-stack task management platform integrating JWT-based authentication and fine-grained Role-Based Access Control (RBAC) to enable secure user collaboration.

Professional Experience

Full Stack Developer Intern — FTV Saloon Jun 2024 – Sep 2024

Remote | Internship

- Developed a secure authentication system featuring role-based access control (RBAC) and specialized admin dashboards.
- Designed and implemented robust RESTful APIs for core salon operations, ensuring reliable data consistency.
- Optimized critical backend database queries and frontend asset loading, resulting in a 40% reduction in page load time.

Education

Bachelor of Technology in Electronics Engineering Aug 2021 – Jul 2025

Rajkiya Engineering College | Sonbhadra, India

Relevant Coursework: Data Structures & Algorithms, Python, C, System Modeling, Operating Systems, DBMS, Computer Networks

Grade: 7.5 CGPA

Certifications

- **AWS Certified Cloud Practitioner** — Amazon Web Services | 2024
- **Meta Backend Developer Professional Certificate** — Meta / Coursera | 2023
