Professional Summary

Software engineer experienced in developing full-stack web applications and REST APIs using TypeScript, Next.js, Node.js, and Python. Demonstrates hands-on capability in architecting modular backend services with PostgreSQL persistence, TypeORM, and Docker containerization. Proven technical background in implementing role-based authentication systems, automated code review tools, and Git integration workflows.

Technical Skills

Languages: TypeScript, Python, JavaScript

Backend & APIs: Node.js, FastAPI, NestJS, Express.js, Flask

Frontend & Web: Next.js, React

Databases & ORMs: PostgreSQL, Redis

Cloud, DevOps & Systems: Docker, Git

Technical Projects

Product Data Explorer **GitHub**

- Architected a full-stack product catalog explorer using Next.js 14, TypeScript, and server-side rendering with Tailwind CSS to facilitate responsive catalog browsing.
- Engineered a modular NestJS backend utilizing TypeORM, PostgreSQL persistence, and a Redis caching layer to accelerate query response times.

Collaborative Task Manager **GitHub**

- Engineered a full-stack collaborative task management application using Next.js and TypeScript, integrating JWT authentication and fine-grained Role-Based Access Control (RBAC) to enforce secure multi-user collaboration.
- Implemented RESTful CRUD APIs using Node.js and Prisma ORM, optimizing complex PostgreSQL queries to support real-time updates across the platform.

AI-Powered Code Review Assistant **GitHub**

- Engineered an automated code analysis service using Python, FastAPI, and Flask to evaluate pull requests and detect code anti-patterns.
- Implemented rule-based validation logic to identify security vulnerabilities, code smells, and syntax issues across pull requests.

Professional Experience

Full Stack Developer Intern — FTV Saloon Jun 2024 – Sep 2024

Remote | Internship

- Designed and implemented robust RESTful APIs for core salon operations, ensuring reliable data consistency.
- Optimized critical backend database queries and frontend asset loading, resulting in a 40% reduction in page load time.

Education

Bachelor of Technology in Electronics Engineering Aug 2021 – Jul 2025

Rajkiya Engineering College | Sonbhadra, India

Relevant Coursework: Data Structures & Algorithms, Python, C, System Modeling, Operating Systems, DBMS, Computer Networks

Grade: 7.5 CGPA

Certifications

- **AWS Certified Cloud Practitioner** — Amazon Web Services | 2024
- **Meta Backend Developer Professional Certificate** — Meta / Coursera | 2023

Languages

English (Professional), Hindi (Professional)
